Abstrak

Betawi Identity is getting fader. This thing is caused by the people which no longer use their language and prefer to use Indonesia language which have more prestige. This is seen from the usage of Betawi vocabulary which is no longer used and taught to their offsprings (Grijns, 1983). This condition emerge a solitudes of Betawi identity disappearance. Therefore, it is needed to document the identity. One of the effort to document the identity can be done by observing the exertion of the color vocabulary. Based on Saeed (2002), each vocabulary which is owned by a language can show the speaker point of view, including color vocabulary. Moreover, the other objective of this research is to find how far the identity difference between Betawi people in Jakarta and Bekasi. This research is done by using semantics approach based on 216 Color Safe Palatte Card.
